WC Docket Number 18-155 regarding
updating the Intercarrier Compensation Regime
including conference calling services

as a citizen and taxpayer of the U.S. I ask
that our free conference calling would continue
(as well as our unlimited long distance calling)
the conference call is our means of connecting
with friends around the world. As we get older
we cannot always travel to a funeral or be listed
on the conference line. Also church services,
singing groups, news calls, history calls and so
much more, school program, special meetings
and the list could just go on and on.
Many friends I know listen to the conference
line as well and widows would be very
lonely without it.

I ask that you please do not take away the
free conference calling from us and our friends.
Our church groups as well as many other conservative
Mennonite church groups offer free services to the public
after hurricanes, floods, tornadoes, fires, storms and other
disaster strikes our volunteer groups are ready to
go to work clean up, repair or rebuild and their
work goes on for weeks and months some for years
and here is another reason I ask that our free
long distance calls would not be discontinued.
This is how parents keep in touch with their children
keep in touch with their siblings and their parents.

my name: Carol Holt

WC Docket number 18-155 regarding: Updating the Inter-carrier Compensation Regime including conference calling services.

I would ask that you, please, not take away free conference calling! I am a truck driver and enjoy listening to recorded news calls and singing calls. I also listen to church services sometimes on the line. I would not be able to freely listen to these things if you take free conferencing away. Thank you for your consideration!

As a taxpayer, and a free conference calling client, I ask you to please reconsider acting on WC Docket No. 18-155. My free conference calling services are currently at risk of being completely eliminated and costing me, millions of others and our businesses.

I am urging you to refrain from eliminating services that I and millions of other Americans use regularly.

Long-distance carriers will not be negatively affected, financially or otherwise, if free conference calling services are left alone. In fact, they stand to gain upwards of \$80 million.

However, if the FCC does decide to remove these services, I and millions of other American citizens and American businesses will be immediately and negatively affected. We will no longer be able to use these services for free and will instead be forced to pay for conferencing services provided by the long-distance carriers if we want to reach our non-profit organizations, our families, our churches, singing calls, news calls, prayer groups, support groups, board meetings, committee meetings, startups, schools, and global corporate communities and their families.

Widows and other lonely individuals are finding comfort in this type of free conference calling.

Do not take away my free conference calling services and further line the pockets of major long-distance carriers.

I ask the Federal Communication Commission to refrain from proceeding with its rulemaking in WC Docket No. 18-155.

Signed,

WC Docket number 18-155 regarding: Updating the Intercarrier Compensation Regime including conference calling services.

We would appreciate if our free conference calling could continue as we do listen to church services when unable to attend also the various singing calls. Thank-you for paying attention to this matter

We would really like to keep what we have, as we find out about who died or all the other news too, also when someone is sick we can listen to other ministers from other churches

WC Docket number 18-155 Regarding: Updating the intercarrier compensation regime including conference calling services.

To Whom it may Concern:

Please keep our free conference numbers!! As a conservative Mennonite and with no TV or Radio. We depend on our conference number for ^{some} church services, private conference calls with like-minded, peace-loving individuals and as a member of a large family, we are able to stay in touch with one another, via our phones. Help us keep this privilege please!
Thank!
